CREAM

SOOTHE TIRED & STIFF MUSCLES

- From Plant to Package, Product of the USA
- Patent Protected
- Broad Spectrum
- THC-Free

Cannabidiol-based products are making waves throughout the health and wellness industries for its remarkable and wide-ranging health benefits. CBD One represents a shift in how the world sees CBD products. That's why we call it CBD One...it's the one and only CBD product your mind and body will ever want! Vasayo CBD One is patent protected, broad spectrum, organic compliant, non-GMO, THC-free, and completely grown and made in the USA from plant to package. And, best of all, we protect our CBD One products with our proprietary liposomal technology for proven increased bioavailability.

Our liposomes are double-layered “bubbles” or spheres that surround nutrients, helping them to pass through the harsh environment of the digestive system intact for better absorption and use by the body. The result? Premium quality products designed to maximize results and minimize waste! And because CBD is often poorly absorbed topically as well as orally on its own, we protect our valuable ingredients in liposomal bubbles using our Advanced Delivery Technology. Simply put, liposomal CBD One provides proven increased bioavailability.*
